

Performance Algorithm

Completed = 100%

Late: 0-24 hrs = - 5 %
1-3 days = - 20 %
3-5 days = - 40 %
5-7 days = - 70 %
7+ days = 0

We need something to store Each task along with the % earned on that specific task

$$\text{Total} = \frac{\text{Total \%}}{\# \text{ of Completed}}$$

← Current Score (will be updated after completion of every individual task)
